

TECHNICIAN

Stone & Glazing Consulting, a nationally recognized exterior wall consulting firm located in Lewisville, Texas, is seeking experienced, motivated Technicians to assist in the functions of the consulting organization including condition surveys, construction inspections, and field testing. Qualified individuals should e-mail their résumés and salary requirements to jobsatsgc@yahoo.com.

Primary Responsibilities:

- Assist Consultants in the performance of field surveys and testing.
- Perform quality assurance inspections on new and remedial projects.
- Maintain the equipment used by Consultants.
- Travel to out-of-town projects, field office, or remote site location to assist in duties as assigned.
- Review a variety of data, including: reports, specifications, proposals, statistical reports, and correspondence, from either written or oral instructions.
- Evaluate field production, revise procedures, or devise new methods to improve efficiency of work flow.
- Organize documentation on projects.

Minimum Requirements:

- High school degree, some college degree or equivalent work experience.
- Knowledge of sealant and application techniques, staging and exterior building access.
- Ability to walk around construction sites, climb ladders, ride and operate powered platform stages and other access equipment, lift tools and equipment, and perform other construction-related physical activities.
