Stone & Glazing Consulting

Exterior Wall Quality Control, Evaluation and Testing

Stone & Glazing Consulting (SGC), founded in 1992, is a nationally recognized curtain wall consulting firm headquartered in Dallas that provides technical support in the testing, investigation, and remediation of building envelope systems throughout the United States. We provide technical support to property professionals by offering the following services:

New Construction:

- Review of Construction Details & Specifications
- Contractor Submittal Review; Calculations & Drawings
- Quality Control Site Visits During Construction
- Field Testing of Installed Wall Systems

Forensics:

- Problem Identification of Exterior Wall Failure Mechanisms
- Curtain Wall, Skylights, Metal Panels
- Glass, Stone, Precast, Brick, Wood, Panels, Sealants, Coatings, etc.
- Parking Garage Reviews
- Water Penetration Surveys
- Investigative Demolition
- Testing of Facades
- Damage Assessment due to Fire, Tornado, Earthquake, Flooding

Existing Facades:

- Maintenance Reviews

Remediation:

- Repair Requirements
- Project Management of Repairs
- Quality Control of Remediation
- Field Testing to Verify Repairs

OSHA Compliance for Davits & Tie Backs:

- Review and Testing of Exterior Wall Maintenance Components
- ANSI/TWCA I-14.1 Standards
- Design of Davit & Tie-Back Systems New or Existing Buildings

Expert Witness:

- Legal Representation & Support
- Insurance Claims
- Presentations & Lectures

Our specialty is supporting Building Owners and Property Managers with integrity, hard work, dedication and ingenuity. Our commitment is to be there to support you in your time of need.
